Workshop Host Handbook

Makerscape.in

India's Only Platform Exclusively For Workshops*

How We Operate

At MakerScape, we've designed a streamlined process to support our hosts at every stage from onboarding to workshop day. Through structured training, active promotion, lead management, and on-ground support, we ensure you're set up for a smooth and successful workshop experience.

Here's how it works:

Onboarding & Training:

- *Refer to the Host Registration & Collaboration steps to understand the onboarding process.*
- *If you have limited experience, we recommend assisting in 1–2 workshops before independently hosting, as per the Workshop Hosting Manual provided after onboarding.*

Workshop Promotion & Lead Management:

- *Our team promotes your workshop to the right audience and manages lead generation, ensuring strong participation from both private individuals and corporate clients.*

Workshop Conduct:

- *Before the workshop, you'll receive all participant details & any special instructions if needed for the workshop.*
- *On the day of the workshop, conduct the session independently, following the Workshop Hosting Manual & its tailored guidelines.*
- *You may bring up to two co-hosts for support, but MakerScape.in is not responsible for coordinating or accommodating them.*
- *Our team will be present to provide any materials you need (e.g., stationery, tools), so you can focus entirely on hosting the workshop.*
